

# FINE ARTS PARIS & LA BIENNALE BECOMES FAB PARIS

All the Arts of the World under one Roof

FINE ARTS  
LA BIENNALE

PARIS

Grand Palais Ephémère – 21/26 November 2023

Paris, 14 March 2023

A year after its creation, and following a successful inaugural edition, Fine Arts Paris & La Biennale becomes *FAB PARIS*. The flagship fair, born of the merger of the Biennale des Antiquaires and Fine Arts Paris, continues its expansion - with a new name, a new location and an increased number of international galleries.

The embodiment of French chic and elegance, *FAB PARIS* reflects the unique positioning and international ambition of France's only art fair that celebrates Art from the Antiquity to present day.

The second edition of *FAB PARIS*, which will take place from 21 until 26 November at the prestigious Grand Palais Ephémère, facing the Eiffel Tower, will bring together 110 leading galleries. The fair will provide a unique opportunity for gallerists, collectors, curators, experts and art enthusiasts to discover exceptional works across disciplines and centuries, ranging from Archeology and Jewellery to Modern & Contemporary Art, Fine Arts and Design. The venue's central location, close to Paris's most vibrant galleries and museums, will also facilitate fruitful business conversations among actors of the international art market, in a refined and welcoming atmosphere.

PARIS

Transparency is one of the founding principles of FAB Paris. As such, the fair applies the highest standards of vetting and a meticulous approach to provenance, with some of the world's most renowned experts guaranteeing the quality of the works on display.

**Louis de Bayser**, President of FAB PARIS says: *“Our objective was to give Paris a fair with international scope, gathering all the arts of the world under one roof. FAB Paris’s ambition today is both to become a “fabulous” event for collectors and art professionals, and to celebrate craftsmanship across time and continents. The fair’s new graphic identity, conceived by branding agency Jésus and Gabriel, pays tribute to the joyful act of creating and the know-how that humanity has accumulated over the centuries”.*
